### 2.2 Immediate notification of information which may have a material effect on price or value

The Company must immediately disclose to the market any information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities. Disclosure is made by making an announcement to ASX.

Information will be taken to have a material effect on the price or value of the Company's securities if it would be likely to influence persons who commonly invest in securities in deciding whether or not to subscribe for, or buy or sell the Company's securities. This type of information is price sensitive information.

Materiality is assessed using measures appropriate to the Company and having regard to the examples given by ASX in ASX Listing Rule 3.1.

If any material information disclosed to the market becomes incorrect, the Company must release an announcement correcting or updating the information.

### 2.3 Exceptions to disclosure of information

Disclosure of price sensitive information is not required while the following paragraphs (a), (b) and (c) are satisfied:
